USEF Table IV, Section 1 (Optimum Time)

- Riders aim to complete the course as close as possible to a posted **optimum time**—a target set slightly below the maximum time allowed.
- Time penalties apply if a competitor exceeds the time allowed.
- In the event of a tie, the rider closest to the optimum time **without faults** wins.

USEF Table II, Section 1 (Fastest Clear Round)

- One round, one chance: the fastest clear round wins.
- Knockdowns, refusals, and exceeding the time allowed result in penalties.

USEF Table II, 2b (Jump-Off Format)

- Riders who **go clear** in the first round stay in the ring and wait for the buzzer to begin the jump-off.
- The jump-off is a shortened version of the original course with tighter turns and strategic challenges.
- The fastest clear round in the jump-off determines the winner.
- This format adds an element of strategy, as riders must navigate risk versus reward in both rounds.

USEF Table II, 2c (Power and Speed)

- The course is split into **two phases**: the first is the "power" phase, which tests careful, fault-free riding.
- If the rider completes the power phase clear, they seamlessly continue into the "speed" phase.
- The speed phase is all about time—the fastest clean ride takes the class.
- If a rider incurs faults in the power phase, they are eliminated from the speed phase.
